2019

| Workshop #1            | June 27, 2019     | Project Introduction               |
| Workshop #2            | August 24, 2019   | Guided Reservoir Walk / Visioning  |
| Workshop #3            | November 2, 2019  | Design Options Workshop            |
| Workshop #4            | January 23, 2020  | Design Refine Workshop             |
| Workshop #5,6          | May 2020          | Final MP Celebration               |
**MASTER PLAN definition**

*a plan giving overall guidance*

- **Visioning Document**
- Typically **20-year** horizon
- Implementation based on **political will** and funding

*traffic study*

POLLOCK WELL:
- replenishment /supply

RECIRCULATION PROJECT:
- Daily circulation
- Prevents algal growth
- Sets Ivanhoe water elevation at 451'

AERATION PROJECT:
- Increases dissolved oxygen
- Prevents odors
MATTER

**Birds Are Vanishing From North America**

The number of birds in the United States and Canada has declined by 3 billion, or 29 percent, over the past half-century, scientists find.
wildlife protection & habitat enhancement
AGENDA

01 schedule
02 SLRCMP recap
03 design progression
04 preferred plan design
05 table sessions
public process

Community Workshop #1
Date: June 27; 6-8pm
OVER 220 PARTICIPANTS

Community Workshop #2
Date: August 22; 8-11am
OVER 600 PARTICIPANTS

Community Workshop #3
Date: Nov 2; 1-3:30pm
OVER 450 PARTICIPANTS
Top challenges
- balancing human access and wildlife traffic
- removing the fences
- maintenance and funding

Top opportunities
- more green space
- Increased outdoor activities
- improve habitat for wildlife
- more beautiful and serene spaces
### Community Workshop #2

community workshop #2

What We Heard

Q. What one word best describes what the Silver Lake Reservoir Complex should feel like?
key themes

ENJOYING NATURE

WELLNESS

FAMILY FRIENDLY

EDUCATION

COMMUNITY

WATER ACCESS
community workshop #3 recap

concept 1 **ISLAND OVERLOOKS**

- Maintains existing embankment
- Less active spaces
- Maximizes protect wetland habitat
- Least open water

concept 2 **ACTIVE EDGES**

- Engages edges
- Most active spaces
- Least new habitat
- Most open water

concept 3 **BLENDED SPACES**

- Balances spaces
- Most ecologically immersive
- Most new habitat
- Medium open water
community workshop #3 recap

The following key themes were expressed by the community during the visioning process:

**Enjoying Nature**
The park should be a place to sit by the water, walk through a woodland or wetland, and observe wildlife.

**Wellness**
The park should be a place to walk, run or jog, but also offer spaces to sit, relax, and listen to music.

**Community**
The park should be a place where the neighborhood comes together for shared experiences.

**Family Friendly**
The park should create spaces for children to play and learn about their environment.

**Education**
The park should have an education center offering a range of classes and outdoor-based programs.

**Water Access**
The park should offer opportunities to be at and on the water.

To what extent do you agree each of the conceptual alternatives reflect these ideas or themes?

**Alternative A: Island Overlooks**
- **Pros**: Preserves existing embankment alignment
- **Cons**: Maximizes protected wetland habitat (inhabitats’ balance)
- **Habitat Islands break the open water view of the reservoir, providing visual interest**
- **Provides a single place to access the water**
- **Habitat islands bring the edge to maximize open water views**
- **Locates an education center and observation platform on west side of site**
- **Does not offer human-powered boating**
- **Does not offer swimming**

**Alternative B: Active Edges**
- **Pros**: Terraces step down to the water and provide generous seating and activity options
- **Habitat and people spaces are predominantly separated and in view of reservoir**
- **Provides abundant water and space for creating a "Living Laboratory" at lighthouse**
- **Facilities are located within the proposed terraces, maximizing impact on view**
- **Offers facilities and seating for human-powered boating**
- **Offers pool for kids and swimming pool embedded within the terraces**

**Alternative C: Blended Spaces**
- **Pros**: Open lawn gently slopes to water
- **Integrates some habitat areas within seating terraces and walkways**
- **Provides comfortable seating for viewing the reservoir**
- **Provides most open lawn with shade trees**
- **Locates nature play on west side of site**
- **Offers guided kayak and canoe tours of wetlands**
- **Integrates an education center at the base of the hill**
- **Integrates an education center at the base of the hill**
- **Offers guided kayak and canoe tours of wetlands**
- **Integrates an education center at the base of the hill**
- **Integrates an education center at the base of the hill**
- **Offers pool for kids and swimming pool embedded within the terraces**

We need to hear more! Please let us know if you have any other comments:
- **Other Comments:**

Zip code where you live:

Your age (choose one):
- Under 18
- 19-25
- 26-35
- 36-45
- 46-55
- 56-65
- 65+

The following key themes were expressed by the community during the visioning process:

**Enjoying Nature**
The park should be a place to sit by the water, walk through a woodland or wetland, and observe wildlife.

**Wellness**
The park should be a place to walk, run or jog, but also offer spaces to sit, relax, and listen to music.

**Community**
The park should be a place where the neighborhood comes together for shared experiences.

**Family Friendly**
The park should create spaces for children to play and learn about their environment.

**Education**
The park should have an education center offering a range of classes and outdoor-based programs.

**Water Access**
The park should offer opportunities to be at and on the water.

Thank you for participating in Community Workshop #3, we look forward to seeing you throughout this process!
community workshop #3 recap

Who participated?

(2,385 people answered this question)
RECREATION CENTER
Rank improvements in order of preference

- Expanding & renovating the dog parks: 36%
- Expanding RAP Facilities: 34%
- Move picnic tables to west grassy slope: 16%
- Reconfigure play field: 16%
community workshop #3 recap

PRO

- HABITAT IS A TOP PRIORITY
- WATER ACCESS IS IMPORTANT
- ENVIRONMENTAL EDUCATION OR A LIVING LABORATORY IS IMPORTANT
- OPEN WATER VIEWS AND BREAKING THE VIEWS ARE EQUALLY APPEALING
- INTEGRATING BUILDINGS INTO TERRACES AND THE KNOLL IS DESIRABLE

CON

- SWIMMING IS NOT DESIREABLE BUT IT’S CLOSE
- HUMAN-POWERED BOATING IS NOT DESIREABLE...

...BUT GUIDED TOURS MIGHT BE OK
