To All Interested Parties:

NOTICE OF DECISION ON LOCAL COASTAL DEVELOPMENT PERMIT NO. 21-02 Asilomar Blvd. Stabilization Project

The above referenced Coastal Development Permit was approved with conditions. The permit allows construction of a geo-technically stable roadway using a construction method called, "Cement-Deep Soil Mixing (CDSM)," across the landslide area to prevent further sliding of the block beneath Asilomar Boulevard, between Almar Avenue and Wynola Street within the Pacific Palisades Community Plan Area within Council District 11.

Provided no appeal is filed by November 17, 2021*, the permit will be issued along with a Notice of Permit Issuance, to the applicant and a copy will be sent to the California Coastal Commission, South Coast Area Office. Filing a Notice of Permit Issuance with the Coastal Commission starts a 20-working day period during which an appeal may be made to or by the Commission. The permitted activity would occur within the dual permit jurisdiction area of the California Coastal zone and a separate Coastal Development Permit will be required from the California Coastal Commission.

If you have any questions, or require an appeal form, please contact me at maria.martin@lacity.org or (213) 485-5753.

Sincerely,
for

Maria Martin, Manager
Environmental Management Group
