PROJECT TITLE: (Including its common name, if any) New Northeast Area Police Station	C.F.: 12-1348
---	---------------

PROJECT DESCRIPTION AND LOCATION: The City of Los Angeles (City) is proposing to construct a new administration building on the site of the existing Northeast Area Police Station and then to demolish the existing administration building. The existing administration building was not designed for police station operations and is not efficient for that purpose. A new two story, 52,000 square-foot administration building designed for police operations would be constructed on the project site and the existing two-story, 41,000 square-foot administration building would be demolished; the area within the footprint of the existing administration building would then be paved and striped for surface parking. The proposed project would also replace the existing communications tower with a tower of the same height and would widen and improve San Fernando Road in front of the project site. The new police station facility would house the same complement of assigned staff and apparatus as the existing facility and would not require any new land. The proposed project would be funded with revenue from Proposition Q - the Citywide Public Safety Bond Measure approved by voters in 2002.
